**FOR IMMEDIATE RELEASE:**

**RE/MAX Realty Affiliates  
Named to Power Broker List by RISMedia**

Reno, NV (April 23, 2014) – RE/MAX Realty Affiliates (RRA) has once again been ranked as a power broker by RISMedia. With offices in Reno, Gardnerville and Carson City, RRA ranked 358 for transaction sides among other real estate brokers across the United States.

RRA was just one of the RE/MAX offices throughout the country to make the 2014 RISMedia Power Broker Report Top 500, as RE/MAX placed 110 brokerages among the 500 participating brokerages - that's one in five.

“RE/MAX is a terrific company offering great support, and we’ve been able to capitalize on that in Northern Nevada,” said Amy Lessinger RRA Owner/Broker, out of the Reno office.

According to preliminary results, the productivity of RE/MAX agents was more than double the average of agents at competing brokerages. RE/MAX agents on average not only closed more transaction sides, but also claimed a sales volume 69% higher than the average of all competing agents in the Report.

With nearly 100 agents in Reno, Carson City and Gardnerville, RE/MAX Realty Affiliates is also Northern Nevada’s highest producing real estate office in per agent productivity on average, as recognized by Northern Nevada Regional Multiple Listing Service.

“Of course we’re excited about this recognition,” said John Fisher, RRA Broker/Owner in Gardnerville. “But we’re even happier about what it says about our productivity. Our agents get the job done for their homebuyers and sellers!”

RISMedia will release a final Power Broker report this summer, which will include a total of 1,000 brokerages. The preliminary data was published in this month’s edition of [RISMedia’s Real Estate magazine](#).
