FOR IMMEDIATE RELEASE:

RE/MAX Realty Affiliates Once Again Named to Top 500 Power Broker List by RISMedia

Reno, NV (May 22, 2015) – In the newly released, [RISMedia Power Broker Report](#), RE/MAX Realty Affiliates (RRA), with offices in Reno, Gardnerville and Carson City, ranked 316 (up from 358 last year) for sales volume among other real estate brokers across the United States. When the same list is organized by Per Agent Productivity, RRA ranks number 14 in units and number 36 in volume compared to real estate agencies across the United States.

RRA had a similar showing on the [REAL Trends 500](#) report, where RRA placed 321 in units and 322 in sales volume.

Real estate agents affiliated with RE/MAX rank among the most productive in the United States. In both surveys, RE/MAX had the highest per-agent home sales in 2014 among national real estate franchise brands. RE/MAX agents at the large brokerages included in the [REAL Trends 500](#) averaged 16.6 transaction sides in 2014, and in the RISMedia [Power Broker Report](#) their average was 15.1. These averages were more than double the averages of all other agents in each survey.

“The numbers are a tribute to the professionalism and dedication of each and every one of our agents and offices,” said Amy Lessinger RRA Owner/Broker of the Reno Office. “Our agents have never been satisfied with just doing what’s expected. They’re always going above and beyond.”

With over 100 agents in Reno, Carson City and Gardnerville, RE/MAX Realty Affiliates is also Northern Nevada’s highest producing real estate office in per agent productivity on average, as recognized by Northern Nevada Regional Multiple Listing Service.

“Year after year, we see recognitions that show our agents performing at a very high level,” said John Fisher, Broker/Owner of the Gardnerville & Carson City Offices. “With the significant number of sales our agents complete, it’s apparent that consumers understand the experience of a professional agent makes a huge difference in buying and selling a home.”

RISMedia will release a final Power Broker report this summer, which will include a total of 1,000 brokerages. The preliminary data was published in this month’s edition of [RISMedia’s](#) Real Estate magazine.
