Home Buying Goals & Objectives

- Why have you decided to purchase a home now?
- What are your primary needs and concerns?
- What has been your experience in buying a home?
- What are positive features about your present home?
- What are the negative features?
- New home requirements?
- Other needs (schools, features, etc.)
- What home styles & locations would be suitable?
- How many homes have you already looked at?
- Financing preference?
- Down payment range?
- Earnest deposit range?
- Is there someone else whose advise you will seek before making a decision?
- If we were to find a house today, would you buy it?

MY HOME FINDER

My Home Finder gives you the ability to use the Advanced Search, Save Searches, save and organize properties into Favorite Folders, and receive E-mail Notices of newly listed properties that meet your advanced search criteria.

- **Easy-to-use search capabilities that include geographic area, school district, floor plan, architectural style, exterior features and much more. An unlimited number of searches can be tracked.**
- **E-mail notification of new listings, price changes, status changes, open house dates, and virtual tours.**
- **Agent and buyer can exchange and save comments on each home for later review as they work through the buying process.**

Why Get Pre-Approved?

In today's highly competitive market, buyers who arrange for their financing first have a distinct advantage. Obtaining loan approval prior to beginning your home search saves time, prevents frustration and may even facilitate a "better deal" in your negotiations.

Benefits of Pre-approval

- You'll be in a stronger negotiating position as compared to other buyers who may be competing for the same house
- A seller may be more flexible when negotiating with an approved buyer
- You can close more quickly
- You minimize the worry of whether or not you qualify for a mortgage loan

Are You Already Pre-approved?

- **Second opinions count**
- **Are you getting the best loan for your money and your needs**
- **Experience shows 50% of borrowers are placed in wrong loan programs**
- **A Second Opinion can save you thousands of dollars on closing costs**
- **Most lenders will provide a no-obligation second opinion**

Homeownership is easier than you think!

Four Things to Avoid When Purchasing Your New Home

These are four major things to avoid doing before applying for a loan and during the loan process itself. Any one of these four things can greatly impact your ability to qualify for a mortgage loan, so it is critical to avoid doing any of the following until after your loan has closed.

1. DO NOT CHANGE JOBS

Changing jobs before or during the loan process can create a real problem in qualifying you for a loan, particularly if that job is in a different line of work or at a lower rate of pay. During the loan process, it can also create time delays, as the new job will need to be verified.

2. DO NOT SWITCH BANKS OR MOVE YOUR MONEY AROUND

It is best to leave your money right where it is until your loan is closed. Moving your money to a new bank or even into a new account can wreak havoc with the verification process.

3. DO NOT PAYOFF BILLS

John Walter will advise you if it is necessary to pay off bills to help you qualify for a loan. He will also show you the best way to pay off bills to ensure we have the evidence needed to prove that the bills have been paid to a zero balance.

4. DO NOT MAKE ANY MAJOR PURCHASES

Many borrowers make the mistake of buying a new car, some furniture or making other major purchases without realizing the impact it can have on their ability to qualify for the loan. A large monthly payment can affect the loan amount you qualify for, and during the loan process itself, actually makes it difficult to get your loan approved.

If you must do any of these things listed above (even if you have just been pre-qualified for a loan) contact your lender immediately. He/She can help you by re-qualifying you if necessary and advising you or your options. By avoiding these four things, you can look forward to a smooth and successful loan closing.

Lowest Mortgage Rate isn't Always the Best Deal!

When it comes to choosing a mortgage, borrowers obsessed with finding the lowest interest rate should understand that the mortgage of their dreams could turn into a nightmare.

Often borrowers miss the bigger picture. Closing costs that are far higher than estimated may outweigh what appears to be a break on the interest rate.

Information Needed For Loan Application

1. **W-2 (2 yrs.) & current pay stubs**
2. **Past 7 yrs. pay history on rent/mortgage**
3. **Employment info. for past 2 yrs.**
4. **Last 3 mos. bank statements**
5. **Other loan and credit card info.**
6. **Driver's license**
7. **Social Security Number**
8. **Bank name, acct. numbers & balances**
9. **Check for credit report & appraisal**
10. **If self-employed: last 2 yrs. Tax returns with schedules, YTD P&L and balance sheets**
11. **Certificate of eligibility or DD214's (FHA/VA)**

House Hunting Guidelines

When acting as an Exclusive Buyer's Agent, I make a variety of suggestions and recommendations to my clients. Some of these are:

- **Do secure written approval for a home loan so you can negotiate as a cash buyer**
- **Do put your present home on the market so you can make a strong offer for the home you want**
- **Do look at enough homes to make certain you are knowledgeable about the best available homes to meet your needs but don't look at more homes if one of the first you see matches your wants, needs and price**
- **Do compare any home you are considering with other similar homes that have sold recently. Do drive through neighborhoods at different times of the day to get the feel of the area**
- **Do hire professionals to perform all inspections, surveys, etc.**
- **Do ask your Exclusive Buyer's Agent to explain and research any detail of the home buying process you don't understand.**
- **Do protect your own confidences by telling your Exclusive Buyer's Agent your time frame for moving, maximum purchase price or financing needs.**

House Hunting Guidelines

- **Do** give your Exclusive Buyer's Agent's business card to the host at any open house or new homes subdivision you may visit without your agent. Always make certain other agents know you are represented.
- **Do** tell your Buyer's Agent when you consider looking at a FSBO. Don't lose the opportunity to be represented.
- **Do** utilize professionals to insure that you make educated decisions rather than relying on anyone's verbal representations.
- **Do** secure professional advice before signing any document that you do not fully understand.
- **Do** have your Exclusive Buyer's Agent present to protect your position before you enter into any substantial discussion about purchasing a home.
- **Do** make a serious offer. Sellers may reject further negotiations from a buyer who has alienated them with a lower offer.
- **Do** feel free to open closets, cabinets and drawers in any home you are considering purchasing.
- **Do** continue negotiations until every issue and consideration is resolved and confirmed in writing.
