### My Practice

I have over 30 years of professional experience from the Hospitality, Health Care, Exhibit Design and Real Estate Industries. I was professionally trained as a chef and spent 15 years in fine dining restaurants. I have been a full time REALTOR® for 15 years with a demonstrated track record of high performance sales volume. Since 2005 I have worked on residential new construction and adaptive reuse projects from acquisition through design, market positioning and custom sales. My success as a REALTOR® is due to my ability to anticipate client's needs and exceed their expectations. The combination of my diverse skills gives me a distinct edge in delivering complete satisfaction to all of my clients.
