

My condominium association covers insurance on my unit...  
*right?*

*Learning your association doesn't cover your valuable upgrades **after** a loss can deliver an unexpected and potentially devastating financial blow.*

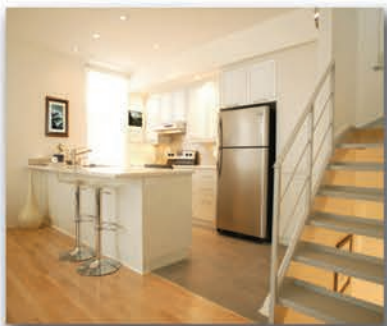

Do you know the details of your association's master policy?

▪ Does your association's policy cover:

- *Countertops*
- *Cabinets*
- *Flooring*
- *Window coverings*
- *Light fixtures*

- Is your association carrying the appropriate coverage to protect you?
- Are you aware of your responsibility for the association's deductible?

---

*Whether you're just beginning your search for a condo or you already own, our insurance professionals will review the master policy and association rules, then work with you to obtain the coverage you need.*

---

You have options. HomeServices Kentuckiana Insurance can help.

*For additional information, to evaluate your current coverage or to obtain a no-obligation quote, contact us today!*
