

Agent Specialization By Buyer Or Seller

Your entire operation is a well-oiled machine. I felt totally pampered from listing to closings. I appreciate the very professional organization and the very personal service. In an era when service is diminishing, the Cindy B team is the exception. Joe Stemple, Park Hills

Your organization provides the best in communication, knowledge of the market and a very professional approach with a tremendous staff with excellent capability. We had total trust and confidence in your whole organization. Out of 11 homes (bought and sold), the Cindy B! team is the best we have been exposed to. Tony Harvill, Ft. Wright

The practice of a specialized contract manager dealing with clients once the contract is signed is an excellent feature that we had not seen before. She was always available by phone and email, unlike agents we've dealt with in the past. Our experience was so positive and it came together so quickly, it is hard to identify improvements. The organization is efficient and very professional. JoAnn Owens, Villa Hills

We like that Cindy B! was able to concentrate on us the customer more, while your professional photographer specialist takes picture and gets the listing set up. It gave Cindy B! more quality time with us to answer all of our questions and time to get the home sold. We like the team concept because it provided us with professional service, abundance of useful information and quick replies. Jim & Darla, Taylor Mill 5/31/05

My buyer agent has an amazing talent for knowing what a buyer is looking for in a house. She also makes time for her clients to see houses on short notice and acts as if it was no inconvenience. For a first time homeowner who really doesn't know what to expect in buying a home, our buyer agent and the contact manager specialist made it all very clear for us. Kit & Chelle Green, Edgewood

I love the concept of different agents working for the buyer or seller. You feel "special" in this case. My buyer agent was the best. I felt as though I made a new friend in the 3-4 weeks that I worked with her. She was a true pleasure to work with. Beth Sterling, Crescent Springs.
